## SCHOOL REPORT.

The schools have had a successful year's work. The average deportment and scholarship has been high. Cases of corporal punishment have been rare. Tact, gentleness and firmness have been employed, appealing to the better nature of the scholars. Quite generally the scholars attended the first day of the term—facilitating the early classification of the schools. One thing I especially desire to call attention to is the large Roll of Honor; this has contributed largely to the success of the schools, the interest of such scholars constantly increasing, careful drill and thorough review made possible. Not that these are always the best scholars, but their constant presence makes probable a result which irregular attendance prevents.

The laws relating to the compulsory attendance of scholars have been posted as required by law and the following statement shows that attention should be paid to the subject:

Whole number of scholars reported by selectmen, 413.

	1ST TERM.	2D TERM.
Number attending two weeks or more,	331	280
Average attendance,	274	234
Number not attending,	82	133

The increased amount of money appropriated, necessitating an earlier beginning of the schools, the terms should be so arranged as to avoid the inclement and uncomfortable weather which greatly interferes with attendance, deportment and studiousness. As prescribed by the general court the study of Physiology and Hygiene with reference to the effects of alcoholic drinks upon the human system, has been introduced into the schools.

Needful apparatus is lacking in several of the schools. In District No. 4 the scholars have raised money by subscription and exhibitions and purchased a globe and wall maps. A good example for needy districts to follow.

The classes were carefully reviewed in their studies and a record of the work made, so that the work of the term may not be simply motion, but progress. The closing examinations of the schools have been generally well attended by parents and friends, which was encouraging to the scholars, cheering to the teachers, and gratifying to the committee, giving a better opportunity to express satisfaction than can be done in the limited space allowed to the annual report.

#### DISTRICT NO. 1.

Prudential Committee, Albert J. Sanborn.

Teachers: First term, Carrie M. Drake of Hampton; second term, Albert J. Brown of Hampton Falls.

Both teachers were without previous experience. They succeeded in inspiring their scholars with enthusiasm in their studies, and although the number in attendance was so few, the interest was kept up and the advance highly satisfactory. The money appropriated for this school is much less than any in town, but by careful drill and study at home the rank of scholarship is as high as any in town. The final examinations showed great care and drill and an excellent comprehension of the different studies.

Number of scholars reported by selectmen, 12; whole number of scholars: 1st term, 9; 2nd term, 9; average attendance, 1st term, 7; 2nd term, 6.

#### ROLL OF HONOR.

2nd term.—Charley E. Gove, Clifford A. Miller; absent on account of sickness, C. Jennie Weare.

## DISTRICT NO. 2.

Prudential Committee, Henry Bragg.

Miss Emma L. Drake of North Hampton, teacher.

Among the things noticed in my first visit to this school was the excellent condition it was in, both as to deportment and classification, showing the result of Miss Drake's excellent management of the previous year and the wisdom of retaining a successful teacher was very apparent.

The last term was quite long, yet the interest was unflagging, the examination evidenced a high state of prosperity, the review was thorough and the scholars ready and prompt in their answers.

Mrs. Fannie E. Souther, teacher.

Scarlet fever and diphtheria have been quite prevalent at the district during the year. Scarlet fever has been epidemic and the school was closed for awhile by the Board of Health. In spite of this interruption the school has made steady progress in study, and the attainments of those who had been regular in the attendance was very noticeable, as compared with those who had been kept away by sickness. The teacher worked hard for the welfare of the school, and the scholars deserve great credit, for their diligence in study. The final examinations gave evidence that the advance made was well understood.

## GRAMMAR DEPARTMENT.

Teacher of the Spring and Fall terms, Frank B. Sanborn of Seabrook, member of the Junior Class, Dartmouth College. This was Mr. Sanborn's first attempt at teaching, although a *young* ~~good~~ man, he came well equipped for his work, having had besides his school training, instruction in the best methods of school government, from his father who has been a successful teacher for many years. Mr. Sanborn's work was conscientiously performed, thoroughness was insisted upon, and the school made a wonderful improvement in Department and Scholarship. The final examinations were most excellent. Mr. Sanborn's studies prevented his teaching the Winter term.

The Winter term was taught by J. Edward Pickering of Newington. Coming from a family of teachers, and having taught successfully for several years, the school began auspiciously, and the good work of the previous term was continued.

The order was perfect, and the scholars were influenced to great studiousness, and their attainments were highly commendable. The work was thorough and systematic. The final examinations shew a clearness of understanding of the ground gone over.

## PRIMARY DEPARTMENT.

The School was under the care of Miss Mary L. Perkins of Seabrook, the Spring, and three weeks of the Fall term ; ill health necessitated the securing of Miss Sue Drake of Hampton, as a substitute to finish the term. The successful work of the previous years of Miss Perkins was repeated. Continued ill-health prevented Miss Perkins taking the Fall term and Miss Mary A. Flanders of Salisbury, Mass., was secured. Under her care the school maintained its good standing, and the scholars were led to feel, that a proper understanding of the rudiments was very essential to their future scholarship. Miss Flanders worked for the improvement of the school, and the examinations were very satisfactory.
